ABOUT ME

Entry-level developer building a strong foundation in HTML, CSS, JavaScript, and React through self-learning and Sigma Bootcamp, with growing interest in full-stack development. Recently completed a software engineering internship at Xsolla KL Sdn Bhd, where I gained hands-on experience working in an agile environment and collaborating with cross-functional teams on real-world product development. I also bring 10 years of experience in customer-facing and operational roles, contributing strong communication skills, cross-functional collaboration, and a user-focused mindset well suited for building reliable digital products.

WORK EXPERIENCE

Xsolla KL Sdn Bhd | Feb 2026 - Jun 2026

Software Engineering Intern

- Completed an intensive full-stack software engineering program covering React, TypeScript, Go, PostgreSQL, Docker, Kubernetes, Datadog, application security, AI engineering, and quality engineering.
- Delivered weekly assignments and demos while receiving mentor-led code reviews and technical feedback.
- Worked in agile sprint cycles, collaborating with peers on feature development and ticket delivery.
- Contributed to the development of a Learning Management System (LMS) capstone project across frontend, backend, CI/CD, and deployment workflows.

Scuta Sdn Bhd | Feb 2016 - Feb 2026

Sales & Operation Senior Executive

- Maintain company's website front end using HTML and CSS.
- Create and maintain data using Google Sheets and Google Apps Script for functionality.
- Coordinate and conduct job interviews.
- Assist in preparing contracts and agreements.
- Provide soft skills training to over 100+ Unifi installers to enhance customer service quality.
- Supervise teams to ensure compliance with Occupational Safety and Health (OSH) standards and Telekom Malaysia (TM) regulations.
- Liaise with TM officers on all matters ensuring team alignment with company policies and procedures.
- Sell and provide solutions for security systems, including CCTV, alarm systems, and access control devices, ensuring clients receive tailored recommendations.

Loi, Tan & Associate | Dec 2014 - Sep 2015

Conveyancing Clerk

- Handle customer enquiries and collection as well facilitated smooth settlement process.
- Assist lawyers with administration tasks such as drafting legal documents, contracts and correspondence.
- Handle incoming calls to assist in clear communication between clients and legal team.

PROJECTS

Learning Management System (LMS)

- Promoted to Team Lead to oversee collaboration, technical direction, and ticket prioritization based on individual team member expertise.
- Developed and maintained a full-stack internal LMS serving students, lecturers, and admins across multi-cohort engineering programs
- Built role-based React/TypeScript frontend featuring student schedule dashboards, lecture detail pages, grade views, and cohort management with Okta SSO authentication
- Contributed to Go REST API with OpenAPI-generated server interfaces, cohort-scoped RBAC, and JWT validation via Okta OIDC/JWKS
- Managed containerized deployments on GKE using GitLab CI/CD pipelines with Docker and nginx
- Diagnosed and resolved production issues including timezone round-trip bugs in form submissions, CI pipeline inefficiencies, and deep-linking for student deadline navigation

EDUCATION

Sigma Coding Bootcamp | 2024 - Present

Full-Stack Development

SMK Cochrane | 2010 - 2014

SPM

TECHNICAL SKILLS

Frontend	Backend	DevOps & Cloud	Observability & Tools	Others
• HTML • CSS3 • JavaScript (ES6+) • TypeScript • React	• Go (Golang) • PostgreSQL	• Docker • Kubernetes	• Datadog • Git • GitHub	• Google Apps Script • Google Sheets & Docs

CERTIFICATES

- Xsolla School Software Engineering Program Certificate
- Certificate of Proficiency in Fiber Optics
- NIOSH - TM Safety Passport

LANGUAGES

- English
- Bahasa Melayu
- Chinese (Mandarin & Cantonese)
